VISIBILITY

Our fully operational solution: My Desk

- **In-house digital suite development:** MyDesk, DriverApp, MyTools
- **Data centricity:** transparency and measurability in the supply chain
- **Seamless data exchange between customers, GRUBER Logistics and its drivers/suppliers**
- **All-digital event sources and documents:** DriverApp, MyDesk
- **EDI-API interface developments**

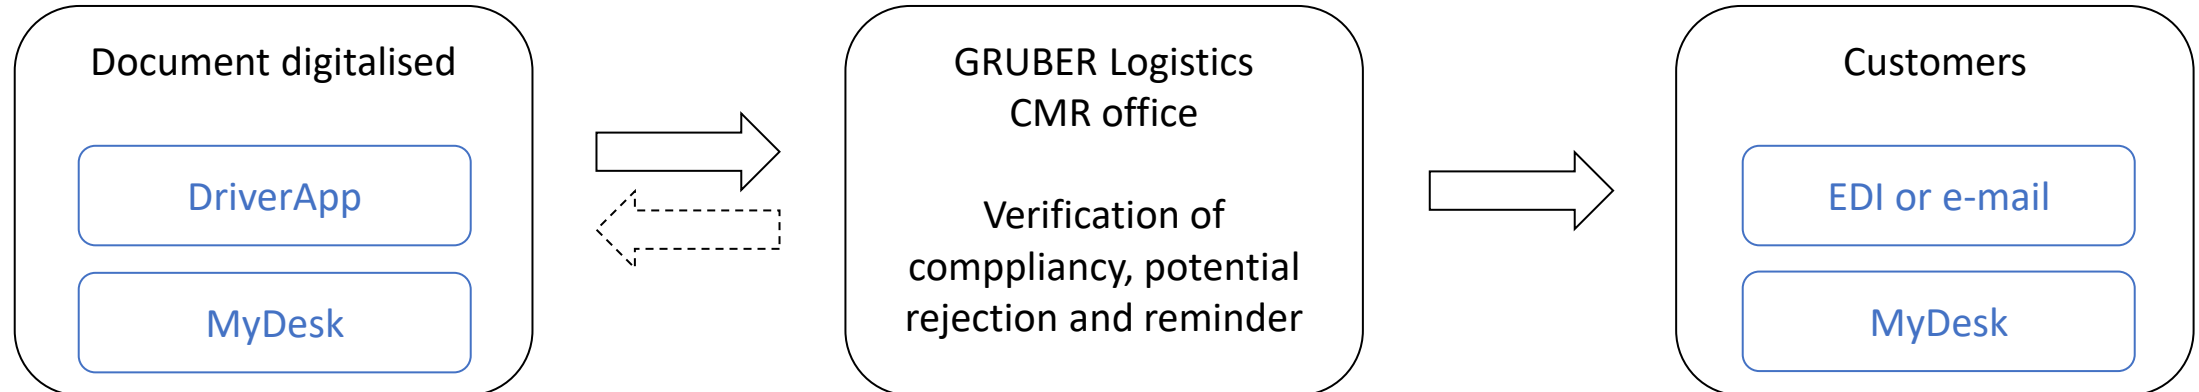

Our results in numbers

- Over **230,000** transportation documents managed on an annual basis
- **94%** of orders do not require original transport documents to be sent
- **2.3%** rejected documents
- Inbound document processing time: within **7 business hours**
- **Consistent positive trend** of improvement in cited results
- **Supplier performance monitoring tools and processes**

Can we really avoid papers?

- Sources: DriverApp and MyDesk
- Documents enter already associated with the order
- Document validation: CMR office verification interface
- Document quality rating management
- Document rejection and reminder process unsatisfactory quality
- Immediate availability per customer: EDI/e-mail and MyDesk

Next step: eCMR

The logo for EUROMERCI is displayed on a dark blue rectangular background. The word "EUROMERCI" is written in a bold, sans-serif font. The "EURO" part is in white, and the "MERCI" part is in a lighter blue color.

Prove di blockchain tra Gruber Logistics, Benetton e Accudire

Seppur la legislazione in Italia non sia ancora pronta ad abbracciare appieno i processi di digitalizzazione della logistica non avendo ancora approvato i protocolli internazionali per l'utilizzo della CMR elettronica, **Gruber Logistics, Benetton e Accudire** proseguono i test di utilizzo della CMR elettronica (**eCMR**) attraverso l'utilizzo della **block chain** come sistema di garanzia.
