#### **EMPLOYMENT**

- 185 thousand employees refer to Chemical, Chemical-Pharmaceutical, Fibers, Abrasives, LPG and Lubricants National Collective Agreement (NCA)
- 109 thousand employees work in the specific field of chemical industry
- For each person employed in the chemical industry, 1.5 jobs are activated in the economic system (over 278 thousand workers, overall)

### High professional qualification

- Graduates represent 35% of total employment, compared to an industrial average of 11%
- High level workers represent 28%

## Strong investments in training

 Leading sector for investments in training: about 34% of employees participate in at least one training course every year (not considering compulsory training)

#### WAGES

Above-average wages, thanks to high professional qualification and productivity:

- Value added per worker about 86% higher than in manufacturing
- Wage per employee almost 50% higher than the average wage in Italy
- Average monthly wage equal to 2,688 €, monthly minimum wage equal to 2,081 € as of January 2022
- Collective performance-related pay, set by NCA and negotiated at company level, represents about 4% of total annual average wage

# NATIONAL COLLECTIVE AGREEMENT

## Training and participation for valuable Industrial Relations, organizational flexibility, efficiency and productivity

- Joint Committees as contexts for participatory consultations
- Training for Social Partners planned and managed jointly with Trade Unions, to assure enterprise bargaining is oriented towards fostering firms' competitiveness
- Flexible job classification system, adjustable to enterprises' needs
- Flexible working hours, adaptable to daily and weekly necessities
- Promotion of enterprise bargaining, productivity, welfare and expertise
- Possibility to temporarily change NCA rules through company agreements
- Specific rules for SMEs on job classification systems and collective performance-related pay
- According to foreign companies' top managers, organizational flexibility is one of the main factors of attractiveness provided by the chemical industry in Italy
- Guidelines to facilitate changes induced from Digital Transformation
- NCA also in digital form, to promote consultation, knowledge and implementation

#### **SOCIAL RESPONSIBILITY**

#### Welfare

Fonchim and FASCHIM: the first sector funds for supplementary pensions and health insurance

Excluding employees enrolled in company funds:

- 80% of employees adhere to Fonchim
- 87% adhere to FASCHIM, to which family members can enroll, too

#### Health and safety at work

For the National Institute for Insurance against Accidents at Work (INAIL), the chemical industry is one of the most virtuous sectors in terms of:

- low incidence of occupational diseases
- few accidents per hour worked

Workers' training programs developed jointly with Trade Unions and hours of training per worker highly exceeding minimum regulatory requirements (+59% since 2005)

Joint website with the Trade Unions to promote safety culture

## Proper use of different types of employment contracts

• 96% of workers have a permanent contract

## Inclusion and Gender Equality

• In the NCA indication aimed to promote a more inclusive enterprise

#### Hours worked

- Incidence of non-worked hours on workable hours is 6.1% (pre-Covid 5.1% vs average in manufacturing 6.4%)
- · Near-zero impact of non-worked hours for strike

# SYSTEM OF INDUSTRIAL RELATIONS

A consolidated sectoral culture has determined a system of Industrial Relations innovative and effective, built up over the years with a high level of involvement by the enterprises

Social Partners relationships are based on:

- · sense of responsibility
- pragmatic attitude in the search for agreements
- continuity of relationships and dialogue
- · credibility and mutual respect

These features have allowed establishing communication based on real issues rather than on power relationships, ensuring peacefulness even in difficult situations

# Role of National Collective Agreement

Sectorial NCA has always steered this system, representing a tool to:

- respond to enterprises and workers' needs, also adopting innovative solutions
- · orient decisions and behaviours
- facilitate the development of constructive enterprise bargaining, in order to support change and sustain firms' competitiveness
